Jimmy Jungle  
626 Jungle Ave Apt 2  
Jungle, NY 11111  
Jimmy:  
Dude, your pot must be the best - it made the cover of High Times Magazine! Thanks for sending me the Cover Page. What do you put in your soil when you plant the marijuana seeds? At least I know your growing it and not some guy in Columbia. These kids, they tell me marijuana isn't addictive, but they don't stop buying from me. Man, I'm sure glad you told me about targeting the high school students. You must have some experience. It's like a guaranteed paycheck. Their parents give them money for lunch and they spend it on my stuff. I'm an entrepreneur. Am I only one you sell to? Maybe I can become distributor of the year!  
I emailed you the schedule that I am using. I think it helps me cover myself and not be predictive. Tell me what you think. To open it, use the same password th at you sent me before with that file. Talk to you later.  
Thanks,  
Joe

According to the information that recovered from file **Jimmy Jungle.doc**. It is revealed that the Supplier came up with the name **Jimmy Jungle**, who live at **626 Jungle Ave Apt 2 Jungle, NY 11111**.

- What Crucial data is available within the coverpage.jpg file and why is this data crucial ?

**Answer :**

Name	S	C	Location	Modified Time	Change Time	Access Time
Unalloc_23_0_1474559			/img_image/Unalloc_23_0_1474559	0000-00-00 00:00:00	0000-00-00 00:00:00	0000-00-00 00:00:00

**P.S : [The Content were modified for simplicity purposes]**

From the **Scheduled visits.xls** which is extracted from the **f00000104.zip** file, It is revealed that aside Smith Hill High School, there are other **5 Highschools** that Jacobs visits frequently, they are : [1]Key High School, [2] Leetch High School, [3] Birard High School, [4] Ritcher High School and [5] Hull High School. They are also came up with dates.

- For each file, what processes were taken by the suspect to mask them from others ?

**Answer :**

**Cover Page.jpg** :

The suspect simply change the file extension from .jpg to .jpgc., thus the file is considered as unknown extension by computer and cannot be opened.

**Jimmy Jungle.doc** :

The suspect have deleted this file.

**Scheduled Visits.exe** :

The suspect simply change the file extension from .zip to .exe, he also set up a password to protect this file, in case someone changed the extension type back to .rar/.zip.

- What processes did you (the investigator) use to successfully examine the entire contents of each file ?

**Answer :**

First, I mount the image file to **Autopsy 4.9.1**. for the examination. I've added it to **Disk Image/ VM File category**. Then I've spotted there are **3 files : cover page.jpgc, Jimmy Jungle.doc [deleted] and Scheduled Visits.exe**. I've checked the files for clues [Reading through with Indexed Text method] but it was a dead end except for the question number 1 [The supplier's name]. Then I've adding back the image file to Autopsy, but this time I add them to **Unallocated Space Image file** instead. From there, I can begin my analysis as I found **3 files** just like earlier, but this time I can see what is the hidden content behind the files. The **f000033.doc** is the Jimmy Jungle.doc file so I ignore it as I already had the answer for question number 1. For answering question number 2 [Crucial data], I immediately check the **f000073.jpg** file, which I believe is the **Coverpage.jpg**, but it was an another dead end as I can't find anything that can help me. Then I check the entire image file, it came with name **Unalloc\_17\_0\_1474559** in Autopsy, after I carefully examined the file, I finally discovered a clue, "**pw=goodtimes**" as the clue was actually hidden in **coverpage.jpg** file. Then for question number 3 [Other high schools] I use the last file named **f0000104.zip**, which I believe is the **Scheduled visits** file. But, since Autopsy can't see through the zip files, I had to export the .zip file to my Desktop for further examination. After I exported it, the zip file asking for a password, so I use the password that I acquired earlier [goodtimes] to **unlock the zip file**. Now that the zip have been unlocked, I finally can access the hidden file, **Scheduled Visits.xls** and see what is inside it. Turns out, it appears that the file was containing **the dates and the locations** of the marijuana sales.

## 2. Analisa Forensik Gambar / Foto

The image displays two side-by-side screenshots of the Autopsy 4.9.1 interface, showing file listings and Exif data for two images: **img\_3.jpg** and **img\_4.jpg**.

**Left Screenshot (img\_3.jpg):**

- Listing: /img\_3.JPG/\$CarvedFiles
- Table: Thumbnail
- Table with columns: Name, S, C, Location
- Row: f0000000.jpg, /img\_3.J
- Exif data:

**Right Screenshot (img\_4.jpg):**

- Listing: /img\_4.jpg
- Table: Thumbnail
- Table with columns: Name, S, C, Location
- Row: Unalloc\_6\_0\_385159, /img\_4.jpg/Unalloc
- Exif data:  
4Exif  
Adobe Photoshop CC 2018 (Windows)2018:10:12 18:28:36  
0221  
Adobe\_CM  
Adobed

[both images were processed with Autopsy 4.9.1]

From the comparasion above, we clearly can see that **img\_4.jpg was fake** as the image was edited with Adobe Photoshop CC 2018 (Windows) at 2018:10:12 18:28:36,

While **img\_3.jpg** was taken with Apple iPhone 8 Plues camera at 2018:10:11 21:50:08 [real].
