

# CYBER KILL CHAIN

Cyber kill chain is a model for incident response teams, digital forensic investigators and malware analysts to work in a chained manner. Inherently understanding, Cyber kill chain is modeling and analyzing offensive actions of a cyberattacker. [J.H. Abawajy et al. (Eds): SSCC 2015, CCIS 536, pp. 438–452, 2015. DOI: 10.1007/978-3-319-22915-7\_40]
